dock10 – Inspiring Young People

dock10, the state-of-the-art Studio and Post Production facility based at MediacityUK is working in collaboration with Salford Foundation to help young people gain the skills and experience to impress at interview.

Under the programme 'Inspire to Aspire' dock10 has worked with the Salford Foundation to give six young people the interview skills that will enhance their employment prospects for years to come. dock10 drafted an advert and a job description for which the students applied. The students then completed a mock interview. The interviews conducted by managers at dock10 covered a comprehensive range of skills including:

- Role preparation and understanding
- Organisation research
- CV preparation
- Covering letter
- Communication skills (telephone / email etc)
- Interview performance

Maxine Freed, Human Resources Manager at dock10, takes up the story

"It has been a real win-win situation with young people aspiring to gain employment having benefited from the 'mock' interview process which covers every aspect of the job application process. At the same time our people's interview and assessment skills have improved. It was a great process and one that we will definitely be repeating."

dock10 is a state-of-the-art Studio and Post Production facility offering a unique, end-to-end work flow approach for production and content management across all genres
